

5th and 6th Grade Summer Math Assignment

The current 5th grade will complete the Khan Academy 5th grade curriculum.
The current 6th grade will complete the Khan Academy 6th grade curriculum.
The respective Khan Academy curriculum must be 100% complete to receive full summer assignment credit at the start of next school year.

The purpose of the summer math assignment is to give the students continued practice over the summer months.

Khan Academy was chosen because

1. It provides video instruction if a student requires review of a given topic.
2. It provides reports of what concepts have been mastered.
3. It is free.

The students have been working on Khan Academy throughout the school year. They have their respective login IDs and passwords and know how to access Khan Academy from <https://www.khanacademy.org/>

Please encourage the students to pace themselves properly so they are finished with 100% of the grade level curriculum by the start of the next school year.

Students who finish early are encouraged to continue to the next level.

Thank you for your support.

Mr. Slater

St. Pius X
