

Virtus

[The Diocese of Covington, Safe Environment Office](#) requires all adults who wish to volunteer in capacity at all Diocesan Schools to be trained via Virtus, the Diocese platform for risk reduction. There are four components to Virtus:

- Opening an online account and registering for, then attending in-person training.
- Submitting a background check via the Virtus website.
- File the required Virtus Application and Acceptance Form with your Parish/School.
- Lastly, once trained and approved, you must read a monthly bulletin to keep compliant.

Every 5 years, all Virtus users are required to renew their applications by processing a new background check, updating volunteer applications and acceptance forms, and taking an online refresher course.

How to start the Virtus process can be found [here](#), or contact the School or Parish office for more information.
